

**Kentucky Department for Medicaid Services  
Division of Community Alternatives  
Electronic Visit Verification – Affected Services**

**Beginning January 1, 2021**, providers delivering certain in-home services to participants in five of Kentucky's six 1915(c) Home and Community Based Services (HCBS) waivers will be required to use electronic visit verification or EVV. The affected waivers are:

- Acquired Brain Injury (ABI)
- Acquired Brain Injury Long Term Care (ABI LTC)
- Home and Community Based
- Michelle P. Waiver
- Supports for Community Living

EVV is an application used to collect information about in-home service delivery including the type, location, date, and start and end time of the service, the name of the individual delivering the service, and the name of the individual receiving the service.

A listing of affected services by waiver is below. Additional information about EVV is available on the Department for Medicaid Services' (DMS) EVV website at <https://bit.ly/kywaiverEVVinfo>. DMS encourages affected providers to subscribe to email updates. Subscription information is available at <https://bit.ly/getkywaiverupdates>.

ABI services requiring use of EVV
Companion (Traditional and PDS)
Personal Care (Traditional and PDS)
Respite (Traditional and PDS)
